

PitcherGPS

Elite & Academy
Football

**Collect powerful
performance data.**

Tailor your training session,
match tactics and
revolutionise player
performance.

WHY

Success starts with GPS

Player development

Provide players with an accurate assessment of their match fitness. Take action to improve player cardio, strength and speed.

Targeted training

Analyse performance by field position, understand your weakness and respond quickly; create tailored training sessions for different positions.

Player benchmarking

Share data across the team and energies player to compete on performance metrics; top speed, acceleration and intensity.

Field position

Are your players where they should be? View heat maps and construct winning strategies to overcome rivals.

Reduce injury

Know if your players are over or under training. Define the optimal training load for each player. A fit team is a winning team.

Facts not fiction

Stop guessing, use facts to assess your team and individual player performances.

HOW Global Positioning System

01 Player Tracker

Designed and built in the UK, the PitcherGPS tracker records a player's movements across the pitch in training or matches, recording detailed performance data.

02 Cloud Hosting

The data is stored within the device and uploaded to the cloud using a custom mobile app in just a few seconds.

03 Data Analysis

Data is presented to the coach and player in an easy to use digital platform. No scientific jargon, just raw metrics and simple graphs providing clear insight into each performance.

METRICS

Record, analyse and improve

Powerful metrics.

Four senses - accelerometer, gyro, magnetometer and GPS module measure a range of movements and performance metrics using the latest GPS technology.

Volume Metrics

- Total distance
- Total time

Intensity Metrics

- Running speeds
- Running zones
- Acceleration & deceleration
- Max speed
- Impacts

Player Positioning

- Heat map field position

Experts in Sport & Technology

Designed for you

PitcheroGPS is designed for elite teams who want useful, key data without the scientific jargon. We keep it simple but powerful, giving you the information coaches and player needs quickly.

Exceptional value

Our business model is to produce a product which is accessible for all teams. We do not focus on the professional game or add additional unnecessary costs.

Awesome support

We provide every customer with telephone support, online demos, regular webinars. Plus access to the Pitchero Clubhouse which is packed with videos and blogs from leading analysis and performance experts.

Made in the UK

Our devices are designed and built in the UK. Our software is constantly being improved based on customer feedback and scientific trials.
